Stable version

Weka 3.8 is the latest stable version of Weka. This branch of Weka only receives bug fixes and upgrades that do not break compatibility with earlier 3.8 releases, although major new features may become available in packages. There are different options for downloading and installing it on your system:

Windows

- Click [here](#) to download a self-extracting executable for 64-bit Windows that includes Azul's 64-bit OpenJDK Java VM 11 (weka-3-8-4-azul-zulu-windows.exe; 118 MB)

This executable will install Weka in your Program Menu. Launching via the Program Menu or shortcuts will automatically use the included JVM to run Weka.

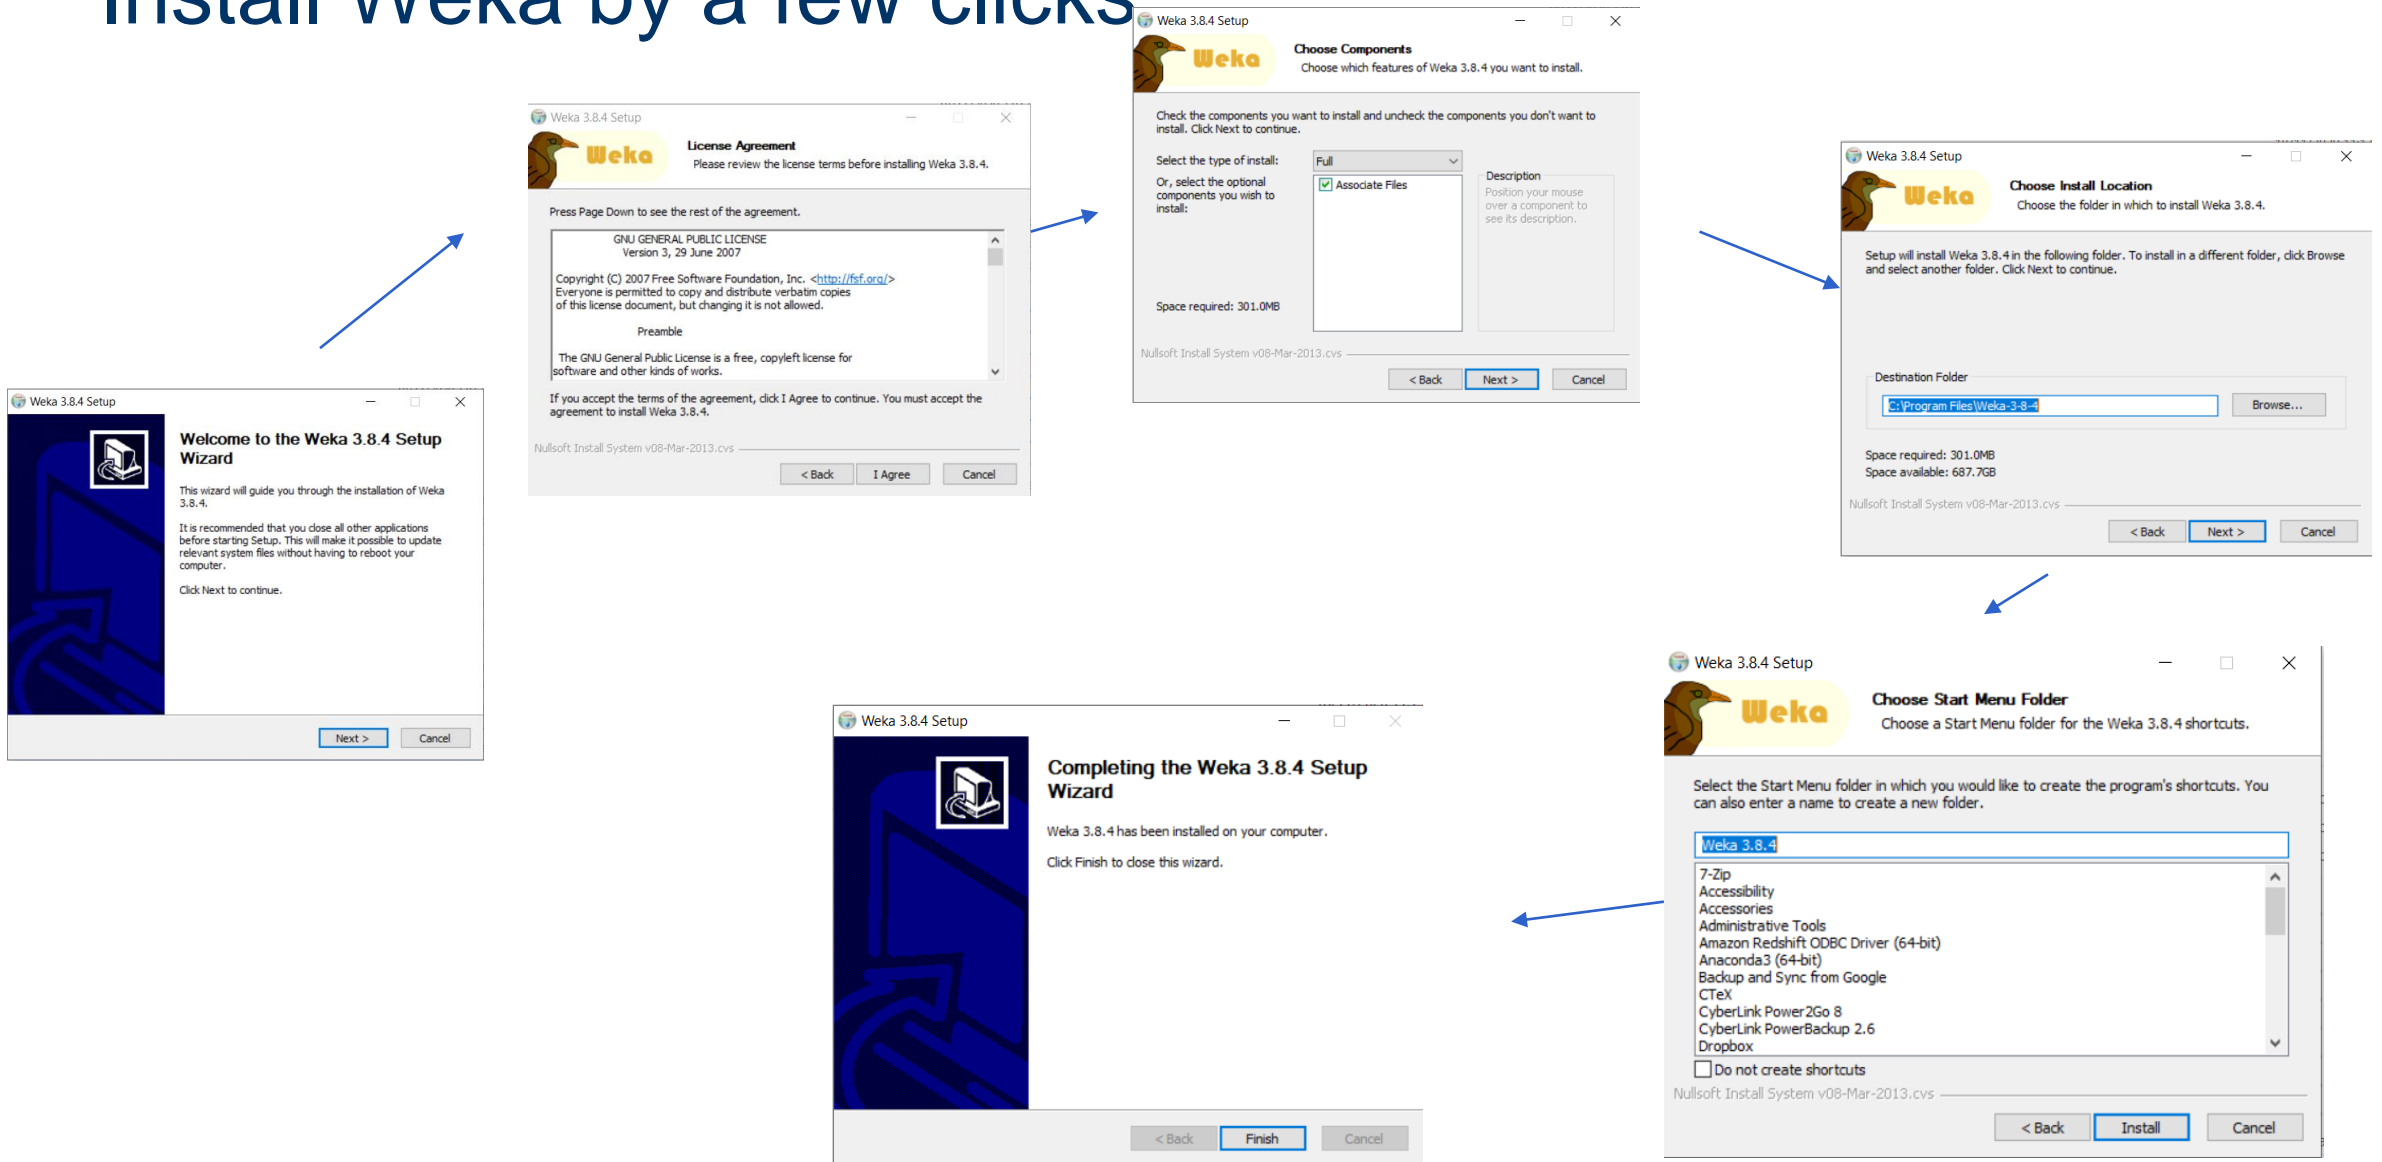

Mac OS

- Click [here](#) to download a disk image for Mac OS that contains a Mac application including Azul's 64-bit OpenJDK Java VM 11 (weka-3-8-4-azul-zulu-osx.dmg; 144 MB)

Linux

- Click [here](#) to download a zip archive for Linux that includes Azul's 64-bit OpenJDK Java VM 11 (weka-3-8-4-azul-zulu-linux.zip; 129 MB)

Install Weka by a few clicks

Launch Weka
